RAPPAHANNOCK WESTMINSTER CANTERBURY, INC. RETIREMENT PLAN

Annual Notice to Participants Who Are Default Invested

The purpose of this Notice is to describe how your 401(k) account is invested and how it will continue to be invested if you do not provide or update investment instructions.

As a participant or beneficiary in the Plan, you have the right to decide how to invest your assets. If you do not provide investment instructions, your assets will continue to be invested in the Plan's default investment option. This option is known as the "qualified default investment alternative", or "QDIA".

The plan's QDIA is the John Hancock JH Retirement To Portfolios. In the attached 404(a)5 Plan & Investment Notice, you will find information describing the investment objectives, risk and return characteristics, and fees and expenses of the QDIA.

If John Hancock has been provided with your date of birth, the QDIA that is used for your default assets is the JH Retirement To Portfolio that most closely corresponds to your birth year in accordance with the following table:

<u>Birth Year</u>	<u>JH Retirement To Portfolio</u>
2001 or later	JH Multi-Index 2070 Preservation Portfolio
1996 - 2000	JH Multi-Index 2065 Preservation Portfolio
1991 - 1995	JH Multi-Index 2060 Preservation Portfolio
1986 - 1990	JH Multi-Index 2055 Preservation Portfolio
1981 - 1985	JH Multi-Index 2050 Preservation Portfolio
1976 - 1980	JH Multi-Index 2045 Preservation Portfolio
1971 - 1975	JH Multi-Index 2040 Preservation Portfolio
1966 - 1970	JH Multi-Index 2035 Preservation Portfolio
1961 - 1965	JH Multi-Index 2030 Preservation Portfolio
1956 - 1960	JH Multi-Index 2025 Preservation Portfolio
1955 or earlier	JH Multi-Index Income Preservation

If John Hancock has not been provided with your date of birth, the QDIA that is used for your default assets is the JH Retirement Income Preservation Portfolio without penalty.

You do not have to leave your default assets in the Plan's QDIA. If you decide that you want to invest your assets differently, you may move all or any part of your account balance to other investment options offered under the Plan without penalty.

Your transfer from the QDIA is not subject to any restrictions, fees or expenses (including redemption fees and similar expenses) to any instruction given by you during the first 90 days of your first investment in the QDIA or within any additional time it takes to complete your transfer. After such time period, your transfer from the QDIA will be subject to the same restrictions, fees and expenses as are applicable to other participants who affirmatively elect to invest in the QDIA. Information about these restrictions, fees and expenses are described on the attached fund sheet(s).

To obtain information about the other investment options that are available under your Plan or view how your account is currently invested, please visit <https://myplan.johnhancock.com/login> or call 1-800-395-1113. For plan information, please contact Terry Keyser at 804-438-4006.

What if I do not want my contributions invested in the default fund?

You can change the way your future contributions are invested at any time, or you can make an exchange from the default investment into any other investment available for your plan by going to the website, <https://myplan.johnhancock.com/login>, or by calling the toll-free number at **(800) 395-1113**. Investment Comparative Chart

THE TRUSTEES OF RAPPAHANNOCK WESTMINSTER CANTERBURY, INC. RETIREMENT PLAN

This document includes important information to help you compare the investment options available under your retirement plan. If you would like to receive additional investment-related information about any of the investment options listed below - including performance data and the option's principal risks - go to the Fund's corresponding website address (shown in the table) or to myplan.johnhancock.com. To obtain more information, or to receive a paper copy (at no cost) of the information available on the websites, contact Terry Keyser at (804) 438-4006 and 132 LANCASTER DRIVE, IRVINGTON, VA, 22480

DOCUMENT OVERVIEW

This document is comprised of two sections; Performance Information and Fee and Expense Information.

Performance Information

This section outlines your retirement plan investment options, how they have performed over time and allows you to compare with an appropriate benchmark for the same time period. Benchmark returns are shown for comparative purposes only. Benchmark returns represent the performance of market indices, which cannot be invested in directly, and their returns are calculated without taking into account any investment fees and/or expenses. Hypothetical Returns are shown in bold.

The data presented represents past performance and does not guarantee future performance. Current performance may be lower or higher than the performance quoted. An investment in a sub-account will fluctuate in value to reflect the value of the sub-account's underlying securities and, when redeemed, may be worth more or less than original cost. Performance does not reflect any applicable contract-level or certain participant-level charges, or any redemption fees imposed by an underlying mutual fund company. These charges, if included, would otherwise reduce the total return for a participant's account. Participants can call 1-800-395-1113 or visit myplan.johnhancock.com for more information.

Fee and Expense Information

This section shows fee and expense information for the investment options available under your contract. Total Annual Operating Expenses and Shareholder-type Fees (if applicable) are outlined as they relate to each investment option. Total Annual Operating Expenses are expenses that reduce the rate of return of the investment option. It is important to understand that the investment rate of return, as set out in the Performance Information section, is calculated net of the Total Annual Operating Expenses of the investment option. However, such returns do not take into account any applicable Shareholder-type fees, which are in addition to the Total Annual Operating Expenses of the investment option.

The Total Annual Operating Expenses ("TAOE") is made up in part by the expenses of the underlying fund based on the underlying fund's expense ratios reported in the most recent prospectuses available as of the date of printing; "FER"). The underlying fund is the mutual fund, collective trust, or exchange traded fund in which the sub-account invests. § The underlying fund of this sub-account has either waived a portion of, or capped, its fees. The TAOE is that of the sub account and reflects the net expense ratio of the underlying fund after such expense waiver or cap is applied. Please see the Fund Sheet for details, including gross expenses.

The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. Visit the Department of Labor's website for an example showing the long-term effect of fees and expenses at <https://www.dol.gov/sites/default/files/ebsa/about-ebsa/our-activities/resource-center/publications/maximize-your-retirement-savings.pdf>. Fees and expenses are only one of many factors to consider when you decide to invest in an option. You may also want to think about whether an investment in a particular option, along with your other investments, will help you achieve your financial goals.

FIXED RETURN INVESTMENTS

The table below focuses on the performance as well as the fees and expenses of investment options that have a fixed or stated return. The table also shows the annual 'new money' rate for each Guaranteed Interest Account, the term or length of the option, and other information relevant to performance.

Name/Type of Option	Return	Term	Other	Total Annual Operating Expenses as of 02/28/2026		Shareholder-Type Fees
				As a %	Per \$1,000	
JH Stable Val Gntd Income Fund(SVGIF) ^{26,83,142,143,166,221,249} Guaranteed Income Fund http://www.viewjhfunds.com/usa/C00j10a/index.html	2.40% as of 04/07/2026	N/A	"Return" shown represents the annualized crediting rate in effect as of the date hereof. John Hancock may adjust the crediting rate prospectively. The crediting rate will be set every January 1 and July 1 and will generally be valid for 6 months (except in extreme market conditions, in which case a new rate may be set on April 1 or October 1). The minimum crediting rate is 1.00%. You may call 1-800-395-1113 to obtain the most recent crediting rate.	N/A	N/A	Withdrawals or transfers from the SVGI Fund that are initiated by Plan participants will be paid at book value, unless they result from events initiated by the Plan Sponsor including, but not limited to, total or partial plan termination, mergers, spin-offs, lay-offs, early retirement incentive programs, sales or closings of all or part of the Plan Sponsor's operations, bankruptcy or receivership, and the total amount of such withdrawals over the preceding twelve (12) month period exceeds 5% of the Plan's balance in the SVGI Fund as of the start of such period. Withdrawals or transfers resulting from events initiated by the Plan Sponsor or resulting from discontinuance from the contract will either be paid in a single lump sum subject to a Market Value Adjustment or will be paid out at book value in five payments over a five-year period.
10-Year Guaranteed (10YC) ^{66,71,78,142,143,166,223} Ten Year Guaranteed Interest Account http://www.viewjhfunds.com/usa/C00/gjaa/index.html	3.35% as of 04/01/2026	10-year	"Return" shown represents the annual interest rates that is established on the first day of the month indicated. That interest rate is applied to all contributions made to the account in that month. John Hancock may adjust the rate of return prospectively, as each month, a new rate is declared and applied to contributions made that month. You may call 1-800-395-1113 to obtain the most recent rate. At the end of each reporting year, a "composite interest rate" is determined. The composite interest rate is a dollar-weighted average rate of all contributions to that Guaranteed Interest Account during that reporting year. A separate composite interest rate is calculated for each GIA term and each reporting year, if applicable. For example, separate composite interest rates would be calculated for deposits made to the 3-year and 10-year GIAs. Further, separate composite interest rates would be calculated for the 3-year GIAs from one reporting year to another. The GIA balance will continue to earn that reporting year's composite interest rate until the end of the guaranteed term. Participants with assets in a Guaranteed Interest Account can obtain more information on the composite interest rate that applies to their account by calling Participant Services at 1-800-395-1113 or viewing their most current Participant Statement.	N/A	N/A	Transfers between a Guaranteed Interest Account and other investment options (except for transfers between Guaranteed Interest Accounts) may be permitted (at book value) under the terms of your plan's contract with John Hancock. Some conditions apply, including limitations as to permitted transfer dates, noted on your quarterly statement, if applicable. Transfers that are initiated on dates other than those specified in the contract may be subject to a market value adjustment. Similarly, withdrawals taken from Guaranteed Interest Accounts prior to the end of the guarantee period, may be subject to a market value adjustment. Book value transfers are subject to an annual 20% book value transfer limit for each Guaranteed Interest Account balance. Transfers in excess of this limit are made at the lesser of book and market value.

IMPORTANT NOTES

The performance data for a sub-account for any period prior to the sub-account Inception Date is hypothetical based on the performance of the underlying investment since inception of the underlying investment. All other performance data is actual (except as otherwise indicated). Returns for any period greater than one year are annualized. Performance data reflects changes in the prices of a sub-account's investments (including the shares of an underlying mutual fund or collective trust), reinvestment of dividends and capital gains and deductions for the expense ratio.

[†]Your company's qualified retirement plan offers participants the opportunity to contribute to investment options available under a group annuity contract with John Hancock Life Insurance Company (U.S.A.) (John Hancock USA). These investment options may be sub-accounts (pooled funds) investing directly in underlying mutual funds, or they may be Guaranteed Interest Accounts.

The Funds offered on the JH Signature platform are classified into five risk categories. The risk category in which a Fund is placed is determined based on where the 10 year Standard Deviation (defined below) of the underlying fund's Morningstar Category falls on the following scale: if the 10 year Standard Deviation of the underlying fund's Morningstar Category is 17.00 or higher, the Fund is classified as "Aggressive;" between 11.50 and 16.99 as "Growth;" between 7.00 and 11.49 as "Growth & Income;" between 2.50 and 6.99 as "Income;" and 2.49 and below as "Conservative." If a 10 year Standard Deviation is not available for a Morningstar Category, then the 5 year Standard Deviation of the underlying fund's Morningstar Category is used to determine the Fund's risk category. If a 5 year Standard Deviation is not available for a Morningstar Category, then the 3 year Standard Deviation of the underlying fund's Morningstar Category Index is used to determine the Fund's risk category. Standard Deviation is defined by Morningstar as a statistical measurement of dispersion about an average, which, for an underlying fund, depicts how widely the returns varied over a certain period of time.

[†]Index Performance: Index performance shown is for a broad-based securities market index. Indices are unmanaged and cannot be invested in directly. Index returns were prepared using Morningstar, Inc. software and data. The performance of an Index does not include any portfolio or insurance-related charges. If these charges were reflected, performance would be lower. Past performance is not a guarantee of future results.

¹³The total revenue Manulife John Hancock receives on this Fund is higher than those advised or sub-advised exclusively by unaffiliated entities. Manulife John Hancock and its affiliates provide advisory and/or sub-advisory services for the underlying fund. For these services, Manulife John Hancock and its affiliates receive additional fees which are included in the underlying fund expense ratio (i.e. Fund Expense Ratio or FER).

⁴⁵The portfolio concentrates its investments in high yield/high risk fixed income securities, also known as junk bonds, which carry a much greater risk of default and tend to be more volatile than higher rated bonds.

⁶⁶Effective November 5, 2012, these Funds will no longer be available to New Business. Please contact your John Hancock representative for more details.

⁷¹Only available under certain limited circumstances. Consult your Manulife John Hancock representative for more information.

⁷⁶Indexes are unmanaged and the performance of an index is not an exact representation of any particular investment, as you cannot invest directly in an index. Like all mutual funds, index funds are subject to market risks and will fluctuate in value. Index funds are designed to track the performance of its target index but may underperform due to fees, expenses or tracking errors. These investments are not actively managed and do not necessarily attempt to manage volatility or protect against losses in declining markets.

None of the index funds are sponsored, endorsed, managed, advised, sold or promoted by any of the respective companies that sponsor the broad-based securities market index, and none of these companies make any representation regarding the advisability of investing in any index mutual fund.

⁷⁸Guaranteed Interest rates shown are gross ARA rates and assume the issuance of a contract at the beginning of each period shown. Actual return may vary depending on the administrative expense and, if applicable, the Sales and Service fee for the contract. The sales and service fee for the contract is the same as that shown for the sub-accounts under the contract. For regular ongoing contributions, interest rates are published at the beginning of each month and apply to all such contributions in that month. For other types of contributions, interest rates may change during

the month. An investment in a guaranteed interest account is not insured or guaranteed by The Federal Deposit Insurance Corporation or any other government agency. Although the guaranteed interest accounts seek to preserve the value of an investment, it is possible to lose money by investing in these portfolios. Guaranteed interest rates are based upon the claims paying ability of the issuing company.

⁸³This investment option is deemed a "Competing" investment option with the John Hancock Stable Value Fund and may not be available. An investment in this portfolio is not insured or guaranteed by The Federal Deposit Insurance Corporation or any other government agency. ⁹¹The underlying John Hancock Variable Insurance Trust portfolio is not a retail mutual fund and is only available under variable annuity contracts, variable life policies or through participation in tax qualified retirement plans. Although the portfolios' investment adviser or sub-advisers may manage retail mutual funds with similar names and investment objectives, no representation is made, and no assurance is given, that any portfolio's investment results will be comparable to the investment results of any other fund, including other funds with the same investment adviser or sub-adviser. Past performance is no guarantee of future results.

⁹⁵The availability of products, Funds and contract features may be subject to Broker-Dealer Firm approval, State approval, Broker Licensing requirements, tax law requirements, or other contract-related requirements. From time to time, changes are made to Funds, and the availability of these changes may be subject to State approvals or other compliance requirements. ²⁴⁹Depending on the Funds selected or recommended by the plan fiduciaries (and whether or not any Funds are recommended or selected), John Hancock and its affiliates may receive additional compensation from the Funds, in the form of 12b-1 fees, transfer agent fees, investment management fees, or otherwise. If the John Hancock Stable Value Guaranteed Investment Fund ('SVGIF') is selected or if the Fund selected invests in the SVGIF, John Hancock may earn more from amounts invested in its general account via SVGIF than the interest amount it credits to SVGIF contract holders, depending on investment and market conditions affecting the general account, in which case this 'spread' revenue is retained by John Hancock. The total revenue John Hancock and its affiliates receive from a fund advised or subadvised by John Hancock affiliates is higher than those advised or subadvised exclusively by unaffiliated entities.
